How to read this report

This report contains two kinds of rule, and only the first is a question to you.

- **Your rules** — written for your address space: the rule names one of your networks, or carries your team's tag or zone. You are the one who can say whether they are still needed.
 - **Inbound** — other systems may reach yours. These are your exposure.
 - **Outbound** — your systems may reach elsewhere.
 - **Both ends yours** — source and destination are both networks of yours.
 - **No direction** — attributed by tag, name or device group, which does not say which side you are on.
- **Rules that also cover your networks** — estate-wide rules that happen to include you: ping, DNS, Active Directory. Nothing is being asked of you here; they are listed so you can see the access you already have, and object if one of your systems must not have it.

Rules appear in the order the firewall evaluates them, grouped into the blocks it evaluates as a unit; the first matching rule wins. Addresses are the result of resolving address objects and groups. Object names are given so they can be cited in a change request. Questions about a rule, or need one changed? Raise a ticket with the firewall team and quote the rule name and its location.

Usage data not included. Rule hit counters are runtime state and are not contained in a configuration backup. This report therefore makes no statement about whether a rule is used. Hit counts can be collected separately via the optional enrichment module.

Your networks (1)

What this report considers yours, and how many of your own rules touch each. Everything else follows from this list, so a wrong entry makes the rest wrong in the same way.

NETWORK	SYSTEM	INBOUND RULES	OUTBOUND RULES
172.16.0.0/16	Perimeter network	3	10

Objects and groups inside your networks (22)

What your networks are called in the firewall. Every address object and group whose addresses lie entirely within your networks — these are the names to quote when you ask for a rule to be changed, and the names you will see in the rules below.

NAME	KIND	DEFINED IN	COVERS	DESCRIPTION
dag-dmz-owned	group	DG-DMZ	172.16.1.5/32, 172.16.1.9/32, 172.16.1.13/32, 172.16.1.17/32, 172.16.1.21/32	Dynamic group matching 'owner:payments'
dmz-host-01	object	DG-DMZ	172.16.1.5/32	dmz application host 1
dmz-host-02	object	DG-DMZ	172.16.1.6/32	dmz application host 2
dmz-host-03	object	DG-DMZ	172.16.1.7/32	dmz application host 3
dmz-host-04	object	DG-DMZ	172.16.1.8/32	dmz application host 4
dmz-host-05	object	DG-DMZ	172.16.1.9/32	dmz application host 5
dmz-host-06	object	DG-DMZ	172.16.1.10/32	dmz application host 6

net-dmz	object	DG-DMZ	172.16.0.0/16	dmz network segment

Your rules (20)

Written for your address space. These are the ones to decide on.

Inbound — who reaches your networks (3)

Traffic from elsewhere that is permitted to reach the networks you own.

POS	RULE	OTHER SIDE	YOUR NETWORKS	SERVICE / PORTS	APPLICATION	TICKET	FINDINGS
1. DG-DMZ — pre-rules — applies to 001901000003; 2 of 20 rules in this block concern you							
2	dmz-pre-02	any	dmz-host-01	tcp/443	ssl	CHG0010007	MEDIUM Source is 'any'
13	dmz-pre-13	any	dmz-host-01	tcp/443	ssl		MEDIUM Source is 'any'; INFO No change reference
2. DG-DMZ — post-rules — applies to 001901000003; 1 of 2 rules in this block concern you							
2	dmz-post-02	any	dmz-host-01	tcp/443	ssl	CHG0010007	MEDIUM Source is 'any'

Outbound — what your networks reach (10)

Traffic your systems are permitted to send to other networks.

POS	RULE	YOUR NETWORKS	OTHER SIDE	SERVICE / PORTS	APPLICATION	TICKET	FINDINGS
1. DG-DMZ — pre-rules — applies to 001901000003; 10 of 20 rules in this block concern you							
3	dmz-pre-03	net-dmz	any	tcp/443	web-browsing	CHG0010014	MEDIUM Destination is 'any'
5	dmz-pre-05	grp-dmz-app	grp-dns-servers	udp/53	dns		INFO No change reference
8	dmz-pre-08	net-dmz	partner-range	tcp/22	ssh	CHG0010049	HIGH Past its stated expiry date

10	dmz-pre-10 disabled	dmz-host-01	update-service	tcp/443	paloalto-updates	CHG0010063	INFO Disabled
11	dmz-pre-11	dag-dmz-owned	net-management	tcp/22	ssh	CHG0010070	INFO Expires soon
14	dmz-pre-14	net-dmz	any	tcp/443	web-browsing	CHG0010091	MEDIUM Destination is 'any'
16	dmz-pre-16	grp-dmz-app	grp-dns-servers	udp/53	dns	CHG0010105	INFO Expires soon
19	dmz-pre-19	net-dmz	partner-range	tcp/22	ssh	CHG0010126	HIGH Past its stated expiry date
20	dmz-pre-20	dmz-host-02	net-internet-doc	tcp/8080, tcp/8443	any		LOW No description

Both ends yours (7)

Source and destination are both networks you own, so no other team is involved.

POS	RULE	YOUR NETWORKS	OTHER SIDE	SERVICE / PORTS	APPLICATION	TICKET	FINDINGS
1. DG-DMZ — pre-rules — applies to 001901000003; 6 of 20 rules in this block concern you							
1	dmz-pre-01	dmz-host-01, dmz-host-02	dmz-host-01, dmz-host-02	tcp/443	ssl, web-browsing	CHG0010000	INFO Expires soon

Rules that also cover your networks (10)

Estate-wide rules maintained centrally. Nothing to decide — this is for information.

Without a clear direction (10)

Rules permitting any source to any destination, so no side can be called yours or theirs.

POS	DIRECTION	RULE	YOUR NETWORKS	OTHER SIDE	SERVICE / PORTS	APPLICATION
1. DG-DMZ — pre-rules — applies to 001901000003; 2 of 20 rules in this block concern you

15	No direction	partner-pre-15	—	any	any	any

Cleanup candidates (18)

Findings on your own rules only, most significant first. Rules that merely cover your networks are maintained by the firewall team and are not listed here.

SEVERITY	FINDING	RULE	LOCATION	DETAIL	SUGGESTED ACTION
HIGH	Past its stated expiry date EXPIRED_RULE	dmz-pre-08	DG-DMZ/pre	The description gives an expiry of 2026-06-13, 55 days ago, but the rule is still active.	Remove the rule, or extend it with a new change reference.
HIGH	Past its stated expiry date EXPIRED_RULE	dmz-pre-19	DG-DMZ/pre	The description gives an expiry of 2026-06-13, 55 days ago, but the rule is still active.	Remove the rule, or extend it with a new change reference.
MEDIUM	Source is 'any' ANY_SOURCE	dmz-post-02	DG-DMZ/post	Any system reaching this firewall may use this rule to access the listed destinations.	Restrict the source to the networks that legitimately need this access.
MEDIUM	Source is 'any' ANY_SOURCE	dmz-pre-02	DG-DMZ/pre	Any system reaching this firewall may use this rule to access the listed destinations.	Restrict the source to the networks that legitimately need this access.
MEDIUM	Destination is 'any' ANY_DESTINATION	dmz-pre-03	DG-DMZ/pre	The listed sources may reach any destination through this rule.	Name the destinations this access is meant for.
MEDIUM	Source is 'any' ANY_SOURCE	dmz-pre-13	DG-DMZ/pre	Any system reaching this firewall may use this rule to access the listed destinations.	Restrict the source to the networks that legitimately need this access.
MEDIUM	Destination is 'any' ANY_DESTINATION	dmz-pre-14	DG-DMZ/pre	The listed sources may reach any destination through this rule.	Name the destinations this access is meant for.
LOW	No description NO_DESCRIPTION	dmz-pre-09	DG-DMZ/pre	The rule has no description, so its purpose cannot be established from the configuration alone.	Add the purpose, the requester and the change reference.
LOW	No description NO_DESCRIPTION	dmz-pre-20	DG-DMZ/pre	The rule has no description, so its purpose cannot be established from the configuration alone.	Add the purpose, the requester and the change reference.
INFO	Expires soon EXPIRING_SOON	dmz-post-01	DG-DMZ/post	The stated expiry is 2026-08-27, in 20 days.	Confirm whether the access is still needed before it lapses.
INFO	Expires soon EXPIRING_SOON	dmz-pre-01	DG-DMZ/pre	The stated expiry is 2026-08-27, in 20 days.	Confirm whether the access is still needed before it lapses.
INFO	No change reference NO_TICKET	dmz-pre-05	DG-DMZ/pre	The description holds no recognisable ticket number, so the rule cannot be traced back to an approved change.	Add the ticket reference to the description.
INFO	Expires soon EXPIRING_SOON	dmz-pre-06	DG-DMZ/pre	The stated expiry is 2026-08-27, in 20 days.	Confirm whether the access is still needed before it lapses.
INFO	Disabled DISABLED_RULE	dmz-pre-10	DG-DMZ/pre	The rule is disabled and has no effect on traffic.	Delete it if it is no longer needed; disabled rules accumulate and obscure the active policy.
INFO	Expires soon EXPIRING_SOON	dmz-pre-11	DG-DMZ/pre	The stated expiry is 2026-08-27, in 20 days.	Confirm whether the access is still needed before it lapses.
